

The Journal of “China Population and Development Studies(CPDS)”

A quarterly English academic journal focusing on China's population and development, *China Population and Development Studies (CPDS)* is hosted by the China Population and Development Research Center (CPDRC) and affiliated to National Health Commission of China. Instead of being a new magazine, *China Population and Development Studies* took shape by making innovative adjustments to the contents and form of *China Population Today*, which was founded in the 1980s. In 2018, CPDS and Springer Nature signed cooperative agreement.

The website of CPDS is: <https://link.springer.com/journal/42379>

Aims and Scope

This journal provides an international platform for discussions on topics related to various population phenomena and development issues, complemented by a strong representation of the research trend and achievement in China and other Asian countries. The journal, hosted by the China Population and Development Research Center draws on the energetic and resourceful Chinese research community as well as in close contact with the Asian research community in the area, features the Asian perspective on the field of population studies. As a publication of China Population Association (CPA), this journal publishes original research papers including empirical studies, theoretical and methodological analysis, policy reviews, and survey reports in population and development related fields. Interdisciplinary perspectives are also encouraged to help improving understandings of demographic dynamics as well as refining research methods.

Relevant topic areas include but are not limited to:

- Demography and population studies
- Population policy and planning
- Population and health
- International and internal migration
- Ageing and population dynamics
- Fertility, fertility preference, sex ratio at birth
- Population Economics
- Comparative population studies

- Modeling and projection
- Social science methods and methodology
- Population Sociology

Editor-in-Chief

Zhenzhen Zheng, Chinese Academy of Social Sciences

Executive Editor-in-Chief

Hongyan Liu, China Population and Development Research Center

Chair of Editorial Board

Dan He, China Population and Development Research Center

Director of Editorial Office

WeimingGuo, China Population and Development Research Center

Editorial Board
